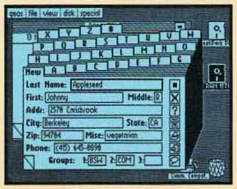
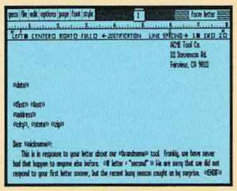
SIX USEFUL AND CONVENIENT ACCESSORIES FOR USE WITH GEOS™ AND GEOS 128™

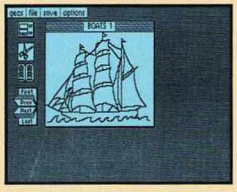
DeskPack *Plus*™ features three desk accessories and three applications designed to further enhance and refine your computing experience.



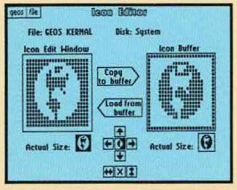
geoDex™ . . . This electronic "card file" gives you total recall. Names, addresses, phone numbers, and related miscellanea appear at your command. Organize by group, or alphabetically. Perform searches. One entry can appear in up to three separate groupings. Print phone lists, two kinds of address labels, the works. Autodialing makes it easy to stay in contact.



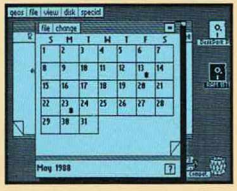
geoMerge™ . . . Increase your efficiency and output with this adaptable mail merge program. Merge groups of addresses from geoDex™; create personalized form letters with geoWrite™; and produce inventory, price tags and data lists with geoFile™.



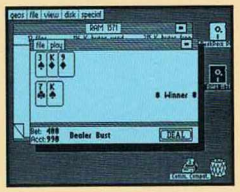
Graphics Grabber™ . . . Now you can transport hundreds of clip art graphics from Print Shop™, PrintMaster™ and Newsroom™ for use with geoPaint™, geoWrite™, and geoPublish™. Copy either singly or in groups. Use exactly the graphic you want exactly where you want it.



Icon Editor™ . . . Express yourself. Personalize existing file icons, or create complete originals which tell the world at a glance what each file contains.



Calendar . . . Organize your time through the year 9999 with this combination calendar/datebook. Record upcoming events. Jot notes. Forgetful? The calendar recalls. Just ask and it lists those dates on which appointments appear.



Blackjack . . . It's you against the dealer and the deck in this authentic simulation of the classic game of chance. Place your bet. Check your hand. Raise the stakes or let it ride. Go double down or play it as it lays. Take a hit or stay. Let the cards fall where they will.

System requirements: Commodore 64, 64c or 128; 1541 or 1571 disk drive; 80 column RGBI monitor (necessary *only* for 80 column screen resolution); GEOS™ (version 1.2 or later) or GEOS 128™; joystick or other input device.
